Background

- The objective of this research is to provide feedback from community members to understand the level of awareness and usage of parks in Harris County.

- More specifically, it is designed to acquire:
  - Awareness about parks in the resident’s precinct
  - Information about level of usage of community parks
  - Knowledge about likes and dislikes regarding community parks

  … and to generate:

  - Suggestions of improvements that would enhance usage of parks
Methodology

- A random sample of Harris County households was selected for participation. Proportional sampling was drawn by zip codes within the four Harris County precincts.
- A total of 400 telephone interviews were conducted in August 2000, in the county’s four precincts.
- David Lidsky, AIA, Bricker + Cannady Architects, coordinated this study on behalf of Harris County.

Key Findings

- Awareness
  > The overwhelming majority, three quarters (74%) of the sample, is aware of the Harris County park system, but many of the named parks are in the city of Houston. Precinct 2 residents indicate lowest awareness.

- Level of usage
  > Four out of ten have visited a Harris County park in the last three months.
  > Two parks, Hermann Park and Memorial Park, mentioned as visited most recently by respondents are Houston city parks.
  > Almost two thirds mentioned Hermann Park as any other Harris County park visited in the last three month.
Key Findings (continued)

- Reasons to visit community parks
  - One third mentioned location and convenience as reasons they go to a park.
  - Location, throughout all precincts is a dominant factor, followed by nature trails.
  - Children’s play areas, picnic areas, and nature trails and jogging tracks were the most frequently used facilities. Only Precinct 2 residents favor baseball diamonds and basketball courts over picnic areas.

Key Findings (continued)

- Suggestions and improvements
  - Four out of ten (48%) felt no changes are needed.
  - Restroom (9%) and lighting improvements (8%) are the most-mentioned enhancements.
    » Other enhancements mentioned are more playgrounds (8%), better security (7%) and cleanliness (7%)
    » Predominately, Precinct 2 residents would like to see lighting upgrades.
  - More than half (51%) of the respondents were either satisfied with current facilities or activities or couldn’t make any suggestions.
Key Findings (continued)

- Features mentioned as desirable additions to parks include:
  - Picnic areas (10%), swimming pools (9%), children’s play areas (9%),
    basketball courts (7%), tennis courts (6%), and baseball diamonds (4%).
  - Precinct 1 was mostly interested in swimming pools and picnic areas,
    Precinct 2 in picnic areas and children’s play areas,
    Precinct 3 in basketball courts, and
    Precinct 4 mentioned swimming pools and children’s play areas.

Awareness of Harris County park system

N=400

26% No, 74% Yes

"Are you aware that there is a Harris County park system?"
Awareness by precinct

"Are you aware that there is a Harris County park system?"

Level of usage of Harris County (Houston) parks

"Have you visited any Harris County parks in the last three months?"
**Most recently visited parks**

N=155

"Which Harris County park have you visited most recently?"

* city park

**Most recently visited parks by precinct**

N = P1-42, P2-32, P3-38, P-43

"Which Harris County park have you visited most recently?"
Other visited parks in Harris County/ Houston

Which other Harris County park have you visited in the past three months (May, June, July)? Note: * city park

Attractions of particular parks

What attracts you to that particular park?
Location, followed by nature trails, are dominant attractions to a park

"What attracts you to that particular park?"

N = P1-42, P2-34, P3-38, P4-43

Nature trails, running and walking tracks, children’s play area, and picnic areas were the most frequently used features

N=149

"What facilities did you use in the park the last time you were there?"

Gelb Consulting Group, Inc.
