  - $X=6$'

**Notes:**

1. Bars 2 are required for beams topped with a cast-in-place concrete slab only.
2. Place drain holes (1" Dia PVC Sch 40 Figs) as shown in all beam cut corners where interior diaphragm is located. The hollow core, Hollowcore, and Coral Core™ slab types are not required in the cut area when Expanded Polystyrene ( EPS) is specified.
3. Blockouts required at ends of all beams. Extend beam reinforcement into blockouts.
4. Cut as required to maintain one inch clear between bars.
5. Dimensions will vary slightly with skew. Adjust as necessary.
